Ramblings to fill a blank space.

This auction will not be published on the internet until May 18 / 19 due to our IT consultant being overseas until then.. At just a touch under 5000 lots, this is our largest catalogue ever. Again production of the catalogue was delayed due to the quantity of material received. We always try to offer all the material we receive but consignments kept coming. Fortunately only about 100 lots of books could not be fitted into the printed catalogue due to weight.. These remaining few lots will be listed on the website and will be sold on Friday afternoon or evening.

. We have had to increase the duration of the auction to five days. There is a physical limit to the number of lots our auctioneers can call a day without speeding through and not giving internet bidders time to bid. There is also a physical limit on catalogue size before it becomes a parcel, not a letter. Our apologies, to buyers and vendors, for the delays.

Again we are fortunate to be able to offer another wonderful collection of Australasian tokens including the iconic William Allen Jameroo & Bell & Gardner 1ds and James Campbell & Thornthwaite 3ds formed by a long time collector over many years. It includes other rare and desirable issues. Condition in many cases is better than average but it still varies from poor to FDC which only goes to show what was available on the market and that some tokens are extremely hard to find and much under-rated in nice grade.

We live in interesting times. Probably half Australia's population is under financial stress due interest rates. The other half are finally seeing a return on the money they have in the bank, only for current governments, both state and federal, to take a large percentage of the interest received, in various taxes because governments and councils know how to spend it better than we do. Ha!

The world is in a mess. There are currently too many bad guys making noises. Portable physical assets are very sensible to own. A good friend of mine said "The only person who should look after your money is yourself"

Gold and silver prices have gone up again. Since our last auction in 2023, the price of gold has risen 17.89% , 32.14% in 2 years. (data from Kitco) . This translates to a rise in the gold value of a sovereign by \$187 over 2 years with the value of gold content in other gold coins including proclamation coins rising by a similar percentage. The silver price, over the same period has risen 9.58% in 1 year and 32.78% in 2 years (data from Kitco). Both prices were 6% to 10% at their peak a month or so ago. Premiums on many high grade and scarcer coins are next to non-existent. Some coins are looking cheap.

Auction prices both here in Australia and Overseas have been strong, especially overseas where a lot of very high prices have been realised for less than stellar coins . As we said before we live in interesting times.

PLEASE NOTE: The two figures after the lot description are the minimum bid & the estimate in AUS.

14054 1800 Draped bust 10c Dime. This is the rarer of the two-known die marriages of the 1800 Draped Bust Dime, attributable by wide A's in the reverse legend and a sharp spine (as struck) from the upper-right corner of the shield. (Both varieties of the issue share the same obverse.) Attractive even natural grey tone, obverse surface lightly marked but no other problems.
