Descriptions of single lots will always mention any faults/defects that may be present. But we do not specifically describe even aging/toning of gum, especially on items from tropical countries.

The Terms & Conditions of sale are printed on the back of the bid sheet, and are also available on our website.

CONDITION OF STAMPS IN COLLECTIONS & ACCUMULATIONS:

- Any such lots may contain some material with faults, which is taken into account when setting the reserves & estimates on such lots.

- Description of condition of such lots is on the basis of what is the prevailing condition of the material ie: “Mostly F-VF” means some faulty items as well. Our descriptions will usually not specify the condition of individual items included in collection lots, nor will we specifically mention any faults/defects that they might have.

- As is the rule with all public auctions; collections, accumulations & mixed lots are not returnable.

- We encourage bidders to view such larger lots before auction, have somebody view for them, or ask us for extra information.

- We are always happy to answer any queries about specific stamps that are in a particular lot & their condition and/or provide scans of better items.

- Also, we are happy for bidders to phone us during the viewing times (but not on auction day!) and ask for expanded description of any lots. One of our describers will then take out the lot and go through it with you on the phone answering any questions about contents, condition etc.

CONDITION OF COVERS / CARDS etc:

Postally used covers/cards can be expected to show some wear consistent with their age and travel through the mails such as filing folds, backflap or edge faults from opening, slight reductions etc. Unless severe or affecting stamps, these will not be mentioned, and are not grounds for returns.

Thus the Platypus embossed issues could be legally used on postal articles, & examples of the 1d, 2d & 6d values are known, only several of each recorded mostly used, although their creation & usage is somewhat shrouded in mystery). 2622 1871-74 Great Northern Telegraph Company 25c. grey, \$1 orange-yellow, \$3 green & \$10 rose-lilac, sets of 4 both of imperf plate proofs, & of the perf 1 1/2 stamps. Imperf 25c with 'Serie F' serial no, the other imperfs w/o serial nos, while the perf stamps all with 'Serie F' serial nos. Hiscock 1-4 & 1a-4a, Bft 1-4 & 1a-4a. (These stamps were printed by Waterlow & Sons & depict Professor H.C. Orsted, the Danish pioneer of electromagnetism. They were prepared for use on the Great Northern Telegraph Company's telegraph network in eastern Asia which had installed telegraph lines Hong Kong - Amoy - Shanghai - Nagasaki). Superb condition, imperfs UN as made, perf stamps MUH, pristine never hinged original gum. Of the imperfs probably 2 sheets of 25 of each existed, of which only 1 of the 25c had the serial nos. While of the issued perf stamps only 1 set of sheets of 25 has ever been recorded in private hands from which these originate, & we have never seen any of the issued perf stamps offered for sale anywhere ever before. Extremely important offering for either the Hong Kong or Chinese specialist, or the collector of world telegraphs.
